FAO please of Alison Fish

I have been advising the ELC and furnishing them with production figures and costs, based on my experiences here in Somerset, see my website below if you need further information. I am impressed by the commitment and professionalism of the ELC's work.

In a nutshell, last year I sold vegetables from an acre of undug beds. To put it in context, this is the result of decades' experience and of building a local market; entrants to a holding will need time to be fully viable - yet it is possible.

So I support this application and am sure its approval will help reduce the locality's dependence on food purchases from elsewhere, for which we may soon be extremely grateful.

regards
